

Community of Learners Scholarship Recipient Academic Advisement Verification Form

Academic advising has been shown to be a key factor in the overall success of students on a college campus. With that in mind, it was determined that through the Community of Learners Scholarship program, the University of North Dakota could help foster the advisor/advisee relationship among our students right from the beginning of their collegiate experience!

A portion of the renewal criteria for the Community of Learners Scholarship program is that you, as a recipient of this scholarship, visit with your academic advisor at least once each semester for a total of eight semesters. You are encouraged to visit with your advisor more often than that, but for verification purposes you only need to complete this form once each semester. This form is to be returned to the address below by the last day of classes each semester to be recorded as verification that you have completed this portion of your scholarship renewal requirement.
